

Time (EST)	Topic	
<b>Session 1 - Getting Started: What to Consider When Developing a Longitudinal Study</b>		
<b>09:00 am - 09:50 am</b>		
<b>Session 1A - Data Collection &amp; Study Design</b>		
09:00 - 09:10	Introduction & Welcome	Sarah Shultz, PhD
09:10 - 09:25	Jonathan O'Muircheartaigh, PhD	<i>Multi-site, cross-sectional &amp; longitudinal MRI studies in early life</i>
09:25 - 09:40	Cassie Hendrix, PhD	<i>Recommendations for obtaining usable MRI data from newborns, infants, and toddlers based on reports from 54 experts</i>
09:40 - 09:55	Cynthia Rogers, MD	<i>Challenges of Longitudinal Infant Neuroimaging Research</i>
09:55 - 10:10	Live Q&A with Session 1A speakers	Moderators: Aiden Ford, Zeena Ammar
<b>10:10 am - 10:20 am</b>		
<b>Coffee Break</b>		
<b>10:20 am - 10:40 am</b>		
<b>Award Ceremony &amp; Student Presentations</b>		
<b>Introduction: Sarah Shultz, PhD</b>		
10:25 - 10:30	Awardee 1	TBA
10:30 - 10:35	Awardee 2	TBA
10:35 - 10:40	Awardee 3	TBA
<b>10:40 am - 11:50 am</b>		
<b>Session 1B - Longitudinal Analysis &amp; Modelling</b>		
10:40 - 10:50	Session Introduction	Sarah Shultz, PhD
10:50 - 11:05	Georg Langs, PhD	<i>The in-utero development of brain structure and function</i>
11:05 - 11:20	Lilla Zöllei, PhD	<i>Spatial alignment of the postnatal infant brain</i>
11:20 - 11:35	Kathryn Mills, PhD	<i>What is brain maturation anyway? Brief dispatches and head scratches on longitudinally modeling of brain development across adolescence</i>
11:35 - 11:50	Live Q&A with Session 1B speakers	Moderators: Aiden Ford, Zeena Ammar
<b>11:50 am - 12:30 pm</b>		
<b>Break</b>		

<b>12:30 pm - 01:30 pm</b>	<b>Session 2 - Making it work: A behind the scenes look at navigating important decision points</b>	
12:30 - 12:35	Introduction: Sarah Shultz, PhD	
12:35 - 01:30	<b>FETAL/INFANT Panel Discussion</b>	<b>INFANT/TODDLER Panel Discussion</b>
	Catherine Limperopoulos, PhD	Weili Lin, PhD
	Lana Vasung, MD, PhD	Mirella Dapretto, PhD
	Jana Hutter, PhD	Nadine Gaab, PhD
	Moderators: Roxane Licandro, Dustin Scheinost	Moderators: Sarah Shultz PhD, Cat Camacho
<b>01:30 pm - 01:40 pm</b>	<b>Coffee Break</b>	
<b>01:40 pm - 02:50 pm</b>	<b>Session 3 - Moving Forward: Advances from Longitudinal Designs</b>	
01:40 - 01:50	Introduction: Sarah Shultz, PhD	
01:50 - 02:05	Sean Deoni, PhD	<i>Continuous longitudinal associations between maturing brain structure and function</i>
02:05 - 02:20	Gregor Kasprian, MD	<i>Optimizing prenatal medicine by advanced fetal brain imaging</i>
02:20 - 02:35	Richard Bethlehem, PhD	<i>Brain chart for the human lifespan</i>
02:35 - 02:50	Live Q&A with Session 3 speakers	Moderators: Kelly Vaughn, Cat Camacho
<b>02:50 pm - 03:00 pm</b>	<b>Closing Remarks: Sarah Shultz, PhD</b>
